

Procedure to configure Apple iOS to support eduroam

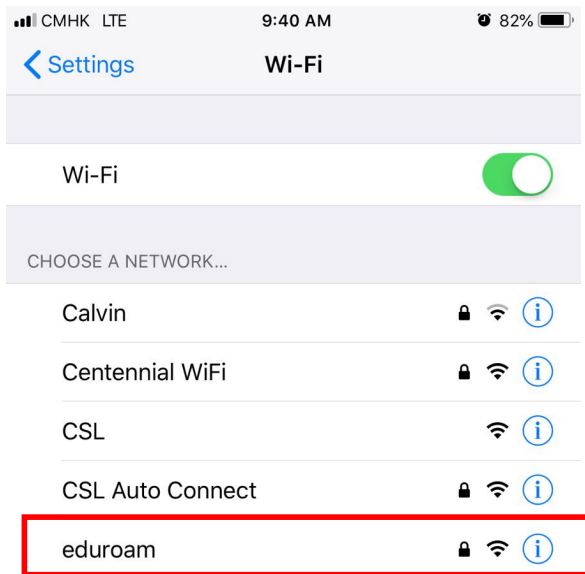

- 1 Turn on your iOS device and navigate to the home screen. Locate and Tap the **Settings** icon.

- 2 Tap the **Wi-Fi** button.

- 3 While you are on eduroam campus, ensure that WiFi is turned **ON** and tap "**eduroam**".

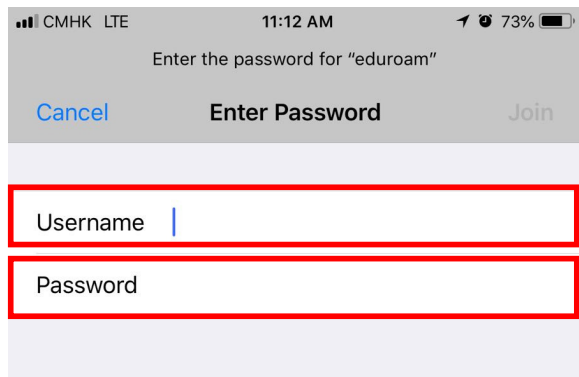

- 4 Enter your username and password.

- a. For Student,

Username: **Learner Portal StudentID** in the format of **StudentID@centennialcollege.hku.hk**
Password: **Learner Portal Password**

- b. For Staff

Username: **Staff Intranet StaffID** in the format of **StaffID@centennialcollege.hku.hk**
Password: **Staff Intranet Password**

- 5 Tap **Join**

- 6 You will be asked to accept the certificate, **802.1x.centennialcollege.hku.hk**, signed by **GeoTrust Trust CA** the first time you connect. Click **Accept** to accept the **Client Authentication**.

7 You should now see "eduroam" as your selected network.
